

April 2021

Small Boat Program Training Bulletin 02-2021

What's New?

1. NOAA Component Course Virtual "NCCV" online distance learning module. The NCCV is designed to meet the needs of future NOAA Small Boat Operators requiring a NOAA Small Boat Component Course using the Google Meet training tool. The NCCV is not a permanent replacement for the NOAA Component Course and will have an end date when the Small Boat Program resumes normal operations. Please be flexible with date coordination as Instructors are being trained the new process. Please email paul.moreno@noaa.gov for prerequisites and course information. Small Boat Safety Board Committee approval.

Alternative Training Opportunities

1. The USCG Auxiliary Online Basic Boating and Seamanship course (BS&S) is an approved Instructor Lead Training "ILT" course which **meets minimum requirements** for qualification. Small Boat Safety Board Committee approval.
2. Registration: https://coastguardinglewood.com/public_ed.html
 - Mr. Dane Hahn <dane.hahn@comcast.net> is the lead USCG AUX Instructor.
 - The cost of the course is \$35 and you have to purchase the book separately.
